

Kiwi

Puree

Mastfoods Kiwi puree is carefully processed from fresh, ripened kiwis to provide the essential flavor, color and nutrition, in a convenient, ready to use ingredient form for processed beverage and food applications

The kiwifruit is a fruit with a very interesting history and whose recent rise in popularity reflects a combination of an appreciation for its taste, nutritional value, unique appearance.

Kiwis are extremely high in Vitamin C and are rich in dietary fiber, potassium, copper, magnesium, Vitamin E, and manganese.
