

Tomato Paste

The land of Greece invites you to a delicious taste. With the cooperation of Greek farmers and our expertise we guarantee an excellent quality of tomato paste.

Mastfoods Tomato paste is carefully processed from fresh, washed wholesome tomatoes to provide the essential nutrition and color, in a convenient, ready to use ingredient form for processed beverage and food applications. Our Tomatoes paste is a great source for Lycopenes and many other important phytochemicals.

Mastfoods Tomato paste is a treasure of riches when it comes to its antioxidant benefits.
